¹ Monthly index numbers are seasonally adjusted. Annual index totals are the average of not seasonally adjusted data.

² CPI-W based on wage-clerical worker spending patterns, CPI-U on expanded population sample covering all urban consumers.

³ Increase (+) or decrease (-) from previous year or from same month in previous year.

⁴ Beginning in 2005, traffic for the former BC Rail is included in the Canadian National data. Beginning in July 2009, Canadian National now includes the Elgin, Joliet & Eastern Railroad.

⁵ Tier I and Tier II creditable payrolls, which became effective with the Railroad Retirement Act of 1974, have annual earnings bases. Tier I payroll includes miscellaneous compensation.

NOTE:---Annual labor force figures are averages of 12 mid-month figures. Mid-month employment count is estimated number of employees in active pay status on carrier reporting date, excluding strikers and other employees whose absence from duty is strike-related, and without regard to whether such excluded employees are qualified for or receiving RUIA unemployment benefits. Railroad unemployed represents number claiming benefits in week including the 15th of month. Benefits are net amounts paid during the month and do not necessarily relate to the period in which accrued. RRA benefits include payments from the Dual Benefits Payments Account. Quarterly figures shown opposite last month of quarter. Changes from preceding month's report reflect revisions based on later data. Detail may not add to totals shown because of rounding.
