Section A -- Financial Statistics

The tables in this section generally present data on financial operations under the Railroad Retirement and Railroad Unemployment Insurance Acts for fiscal year 2017 and for varying numbers of prior years.

The main source of financing the railroad retirement program is a payroll tax paid by employers and employees. Railroad retirement taxes and benefits are paid on a two-tier basis. Employers and employees pay tier I taxes at the same rate as social security taxes, subject to the prevailing social security taxable maximum. Tier II taxes finance benefits payable over and above social security levels, but earnings subject to the tax are restricted to the social security taxable maximums which would have been applicable under continuation of pre-1977 social security law. Both employers and employees pay tier II taxes, but at different rates.

In calendar year 2016 and 2017, a tier I tax rate of 7.65 percent for employers applied to compensation up to \$118,500 and \$127,200 per year, respectively. The tier I rates include taxes that finance the hospital insurance portion of Medicare; that tax rate for both employees and employers was 1.45 percent for 2016 and 2017. There is no limit to earnings subject to the hospital insurance portion of the tier I tax rate. Beginning in 2013, employees pay an additional 0.9 percent on earnings above \$200,000 (for those who file an individual return) or \$250,000 (for those who file a joint return).

The tier II tax rate is determined annually from a tax rate schedule based on the average account benefits ratio. The average account benefits ratio is the average for the 10 fiscal years preceding the calendar year of the ratio of the fair market value of the assets in the Railroad Retirement Account and the National Railroad Retirement Investment Trust (and for years before 2002, the Social Security Equivalent Benefit Account) as of the close of each fiscal year to the total benefits and administrative expenses paid from those accounts during the fiscal year. Employer tax rates can range from 8.2 percent to 22.1 percent. Employee tax rates can range from 0 percent to 4.9 percent. In calendar years 2016 and 2017, the tier II tax rates paid by employers and employees were 13.1 percent and 4.9 percent, respectively, and were levied on annual earnings up to \$88,200 in 2016 and \$94,500 in 2017.

Additional income is derived from Federal income taxes on tier I, tier II and vested dual benefits, from interest on invested funds and from the financial interchange with the social security system. The experience under the latter arrangement is presented in table A3. Under this arrangement, the social security trust funds are, in effect, credited with the additional payroll and income taxes they would have received, and charged with the additional benefits and administrative costs they would have paid if railroad employment had been covered under the social security program, with allowances for interest. Financial interchange determinations are made jointly by the Railroad Retirement Board, the Social Security Administration, and the Centers for Medicare & Medicaid Services on an annual basis. Separate determinations are made with respect to the Old-Age and Survivors Insurance, Disability Insurance, and Hospital Insurance Trust Funds.

The railroad unemployment and sickness benefit programs are financed by contributions from railroad employers, based on a percentage of their employees' taxable earnings. The taxable earnings base for those programs was the first \$1,455 in 2016 and \$1,545 in 2017 of each employee's monthly earnings. Beginning in 1991, each employer's contribution rate is experience based. Temporary extended unemployment benefits authorized by the American Recovery and Reinvestment Act of 2009 (Recovery Act) were financed by a \$20,000,000 congressional appropriation. Benefits had to begin by December 31, 2009. The Worker, Homeownership and Business Assistance Act of 2009 (WHBAA) contained an appropriation of \$175,000,000 to extend the provisions of the Recovery Act by one year. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, the Temporary Payroll Tax Cut Continuation Act of 2011, the Middle Class Tax Relief and Job Creation Act of 2012, and the American Taxpayer Relief Act of 2012 each continued the special unemployment benefit provision for periods ranging from two months to one year, for a total extension of three years. Benefits had to begin by December 31, 2013.

Fiscal years begin October 1 of the prior calendar year and end September 30.

In the tables, detailed figures may not add to totals shown because of rounding.

Table A1.--Beneficiaries and benefits paid under the Railroad Retirement Act and the Railroad Unemployment Insurance Act, by fiscal year, 2008-2017, cash basis

¹ Beginning in fiscal year 2008, beneficiaries and benefit payments include partition payments to spouses and divorced spouses where the employee is deceased or not otherwise entitled to an annuity. Benefit payments also include a small amount of payments for hospital insurance benefits for services in Canada.

² Retirement benefits include vested dual benefit and supplemental annuity payments. Survivor benefits include vested dual benefit payments.

³ Includes temporary extended unemployment benefits under the American Recovery and Reinvestment Act of 2009 and Worker, Homeownership, and Business Assistance Act of 2009, as amended by the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, the Temporary Payroll Tax Cut Continuation Act of 2011, the Middle Class Tax Relief and Job Creation Act of 2012, and the American Taxpayer Relief Act of 2012. Benefits had to begin by December 31, 2013.

⁴ In accordance with the Balanced Budget and Emergency Deficit Control Act of 1985, as amended by the Budget Control Act of 2011, amounts reflect a reduction of 9.2% under sequestration for days of unemployment and sickness after February 28, 2013, 7.2% for days after September 30, 2013, 7.3% for days after September 30, 2014, 6.8% for days after September 30, 2015, and 6.9% for days after September 30, 2016.

NOTE.-- Number of beneficiaries represents all individuals paid benefits in year. In total number for each year, beneficiaries are counted only once, even though they may have received more than one type of benefit. In fiscal year 2017, 7,000 individuals received both retirement and survivor benefits, 800 employees received both unemployment and sickness benefits, and 1,800 employees received benefits under both the Railroad Retirement Act and the Railroad Unemployment Insurance Act. These figures are partly estimated, and totals for earlier years are similarly adjusted.

Includes Federal income tax transfers under section 72(r) of the Internal Revenue Code as amended. In calendar years 2011-2012, Social Security Equivalent Benefit Account includes general revenue transfers under the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 and the Middle Class Tax Relief and Job Creation Act of 2012, respectively. The final reconciliation for calendar years 2011-2012 occurred in June 2015. In fiscal year 2012, Social Security Equivalent Benefit Account includes one-time general revenue transfer under the Hiring Incentives to Restore Employment Act of 2010.

- ² Net of interest on U.S. Treasury adjustments for payroll tax refunds (see note 1).
- ³ Under the Railroad Retirement and Survivors' Improvement Act of 2001, as amended, the portion of the Railroad Retirement Account not needed to pay current administrative expenses is to be transferred to the National Railroad Retirement Investment Trust (Trust). The Trust may transfer funds back to the Railroad Retirement Account for payment of benefits. The balance of the Social Security Equivalent Benefit (SSEB) Account not needed to pay current benefits and administrative expenses is to be transferred to the Trust or to the Railroad Retirement Account. The SSEB Account transferred funds to the Trust in fiscal year 2003 and to the Railroad Retirement Account thereafter. In fiscal year 2017 the Railroad Retirement Account transferred funds to the SSEB Account to pay benefits.

⁴ Includes interest.

- ⁵ Effective January 1, 2002, supplemental benefits are paid from the Railroad Retirement Account.
- ⁶ Adjustments in benefit payments charged to the Social Security Equivalent Benefit Account as compared to actual financial interchange benefits, with interest. This adjustment was discontinued in fiscal year 2017.
- ⁷ Due to delay in enactment of a continuing resolution, the Dual Benefits Payments Account borrowed \$4,500,000 from the Railroad Retirement Account in October 2013 in order to pay vested dual benefits. The loan was repaid in entirety in December 2013.
- ⁸ The Railroad Retirement Account balance reflects (a) the current net difference between Railroad Retirement Board payments of social security benefits and the receipt of reimbursements for such payments, (b) liabilities for uncashed check credits received from U.S. Treasury, and (c) credits for undistributed payment returns and recoveries. The Dual Benefits Payments Account balance does not carry over to the following year.
