Selected National and Railroad Data - Continued

NOTE:—Annual labor force figures are averages of 12 mid-month figures. Mid-month employment count is estimated number of employees in active pay status on carrier reporting date, excluding strikers and other employees whose absence from duty is strike-related, and without regard to whether such excluded employees are qualified for or receiving RUIA unemployment benefits. Railroad unemployed represents number claiming benefits in week including the 15th of month.

Benefits are net amounts paid during the month and do not necessarily relate to the period in which accrued. RRA benefits include payments from the Dual Benefits Payments Account. Quarterly figures shown opposite last month of quarter. Changes from preceding month's report reflect revisions based on later data. Detail may not add to totals shown because of rounding.

¹ Monthly index numbers are seasonally adjusted. Annual index totals are the average of not seasonally adjusted data.

² CPI-W based on wage-clerical worker spending patterns, CPI-U on expanded population sample covering all urban consumers.

³ Employment data for 2018 and 2019 is preliminary. Monthly data for 2017 was revised in November 2018.

⁴ Increase (+) or decrease (-) from previous year or from same month in previous year.

⁸ Source: The Association of American Railroads (AAR). U.S. rail total traffic consists of carloads and intermodal units and excludes the U.S. operations of Canadian National and Canadian Pacific. Elgin, Joliet and Eastern Railway Company was included prior to July 2009 when it then was consolidated into CN. Effective 2018, U.S. rail total traffic also excludes the U.S. operations of Grupo México Transportes.

⁹ Tier I and Tier II creditable payrolls, which became effective with the Railroad Retirement Act of 1974, have annual earnings bases. RUIA payroll has a monthly earnings base. Tier I payroll includes miscellaneous compensation.
