²Railroad retirement benefits shown are net of reduction for social security benefit entitlement.

³For employees retiring directly from the railroad industry with full age annuity (their years of service averaged 33); about 300 other age annuities were awarded in the month.

⁴For men full retirement age or over.

⁵A disability annuity ends when the retiree attains full retirement age, at which time the annuity converts to an age and service annuity. Consequently, these annuitants are receiving age and service annuities. Full retirement age gradually increases, from age 65 to 67, for those born between 1937 and 1960. It is age 67 for those born after 1959 and age 65 for those born before 1938.

⁶Fewer than 50.

⁷Remarried and divorced widow(er)s included with aged and disabled widow(er)s and widowed mothers and fathers.

⁸Excludes partition payments to spouses and divorced spouses where the employee is deceased. Number and averages are for employee annuitants only and reflect court-ordered partitions.
