Benefit Adjustments

The Railroad Retirement Board (RRB) is currently experiencing a high volume of pending annuity adjustment actions where benefit payment changes are due for currently entitled retirement, survivor, and disability beneficiaries. We are committed to prioritizing this work to ensure the accuracy of all retirement benefit payments. The following timeliness objective illustrates our commitment to reducing the volume of these cases by establishing a goal that reflects the high level of customer service we currently provide for paying initial benefits.

We will process 80% of self-reported activities that may impact annuities payable under the Railroad Retirement Act within 180 days of receipt.
